Welcome or welcome back! We believe you'll find your Grantham Garden Club (GGC) membership a fun and rewarding experience. Not only will you enjoy new friendships with a common interest, you'll expand your gardening knowledge through a variety of programs. And, to help promote our future generations' interest in environmental stewardship, the Club is proud of its efforts to provide scholarships to New Hampshire residents preparing for careers in horticulture, landscaping, forestry, agriculture, plant sciences, or environmental sciences at a post-secondary institution through monies raised at the Club's annual plant sale and other fundraising efforts.

Volunteers are a critical component of The GGC. We strongly encourage all Club members to serve on a committee or assist in one or more of the Club's activities offered throughout the year. Not only are you providing vital support to the organization, it is a great way to get to know your fellow members.

Please check off the areas below that you might be interested in assisting with. Descriptions are available online in the Membership section. (If a household membership, please be sure to indicate each person's interests.) **NOTE: Due to COVID-19, activities may be modified, postponed or cancelled.**
