

SUN/SHADE CONDITIONS

(most agreed upon definitions)

- **Full sun:** 6 or more hours of direct, full sun/day
 - Doesn't need to be continuous
- **Part or Partial Sun:** between 4 to 6 hours of sun/day
- **Part or Partial Shade:** 2 to 4 hours of sun/day
- **Shade:** < 2 hours of sun/day
 - Light/Dappled/Intermittent Shade: receives partially filtered shade (like under a canopied trees, e.g., birch)
 - Moderate Shade: mostly reflected light, like the floor of a hardwood forest
 - Heavy or Dense Shade: no direct sunlight, e.g., below dense evergreens or at the base of a north-facing structure

If plant tag says X to Y, it prefers X but will tolerate up to Y
