

# Grantham Garden Club

*presents:*

***BE HERE NOW: A talk about the world's natural systems and the need for ecological thinking***

**FRIDAY, May 13, 2022**

**10:00 - 11:30 a.m.**

Conducted via Zoom  
*A short business meeting will be held prior to the presentation.*

The collective actions of people are now altering planetary systems in profound and undesirable ways. Crossing tipping points will lead to truly existential challenges for many species, including us. By incorporating ecological principles into our decision-making, we can reverse this trend and help to maintain the planetary balances we rely on.

Lionel Chute is the Director of Natural Resources for Sullivan County Conservation District. Lionel has worked as a forester for the Society for the Protection of NH Forests and as the Administrator of the NH Natural Heritage Bureau at the NH Department of Resources and Economic Development. He graduated from UNH with an A.A.S. in Forest Technology from the Thompson School and a B.S.F. in Forest Science from the Dept of Natural Resources.

Lionel's specialties include forestry, botany, plant community ecology, farming and landscaping.

## ***PROGRAM REGISTRATION***

GGC members will automatically receive the Zoom link. Non-members are welcome. Email your request for the link to: [president@granthamgardenclub.org](mailto:president@granthamgardenclub.org) and please include your name and preferred email.

**This program is open to the public as a community service. NOTE: The program will be recorded and posted on the GGC website as soon as it is available.**
